Custom Mouldings

Does uniqueness appeal to you? Is your home or historical remodel on hold because the mouldings are no longer available? Custom Mouldings are an easy solution. Haynes Brothers Lumber Company can reproduce lineal profiles up to 4 x 9 based on a scale drawing or sample. Patterns ranging from bases, casings, crowns, and dentil crowns, to log cabin siding can be made to your specifications.

Custom Mouldings are easily quoted. Estimated quantity will be needed. Species of lumber and a drawing with sizes or sample are all that is necessary.
